Vadodara, Gujarat | Expected Graduation: 2027

PROFESSIONAL SUMMARY

Computer Science Engineering student specializing in AI with hands-on experience in building production-grade full-stack applications and intelligent AI agents. Proficient in Python frameworks (Django, Flask, FastAPI), modern web technologies (Next.js, React), and AI frameworks (LangChain, LlamaIndex, Smolagents). Experienced in deploying RAG-based systems, microservices architecture, and cloud platforms. Seeking Software Engineering roles in AI/ML, Full Stack Development, or Backend Engineering.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering with AI Specialization

Parul University, Vadodara | Expected Graduation: 2027 | CGPA: 7.4/10

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, Java, C/C++, SQL

Web Frameworks & Libraries: Django, Flask, FastAPI, Next.js, React, Streamlit, Tailwind CSS, Bootstrap, REST APIs

AI/ML : Smolagents, LangChain, LlamaIndex, RAG Systems, NLP, OpenCV, TensorFlow, PyTorch

Databases: MySQL, MongoDB, Firebase, SQLite

Cloud & DevOps: AWS, Cloudflare Workers, Netlify, Firebase, Vercel, Git/GitHub, Docker

Tools & Platforms: n8n Automation, Discord OAuth, Hugging Face, Canva, Figma

PROJECTS

Plexi: AI-Powered Study Assistant & Notes Hub

Tech Stack: V1: Python, Streamlit, LangChain, LlamaIndex, Smolagents, Gemini API | V2: FastAPI, Next.js, Cloudflare Workers

- Designed RAG retrieval pipeline using LlamaIndex + LangChain achieving 90%+ answer relevance across 200+ academic documents.
- Evolved architecture from monolithic Streamlit app (V1) to microservices design (V2) with FastAPI RAG retrieval API, middleware worker, and Next.js frontend deployed on Cloudflare Workers
- Implemented GitHub repository integration for automated document storage and version control, eliminating external API dependencies and achieving faster query response time

Cosmeta: Full-Stack E-Novel Publishing Platform

Tech Stack: Flask, MySQL, Discord OAuth, Firebase, JavaScript, HTML/CSS, Netlify

- Developed Flask based web novel platform with 5+ published chapters, featuring complete author-to-reader workflow
- Engineered role-based access control system with three-tier architecture: Admin dashboard for user management, Author portal for content publishing, and Reader interface with progress tracking

- Integrated Discord OAuth authentication reducing signup friction by 70%, and Ko-fi payment gateway for creator monetization
-

PROFESSIONAL EXPERIENCE

Coordinator, Career Development Cell | July 2024 – February 2025

Parul Institute of Technology, Vadodara

- Contributed in technical and content team for Fun Fest 2024, Gujarat's largest non-technical event with 2,000+ participants across 15+ LSRW competitions
 - Managed end-to-end event registration and data workflow using Google Sheets and Excel, processing 2,000+ participant records with zero data loss
 - Led Technical team for Mic Master 2025, Parul University's Largest Speaking Event with 500+ participants at Institute Level.
